***Continuing Education!***

<http://www.immunizedelaware.org/for-professionals/continuing-education-events/>

**Pink Book Wednesdays**

From June 5 - September 25, CDC experts will discuss a chapter of *Epidemiology and Prevention of Vaccine-Preventable Diseases* (commonly known as "The Pink Book"), 13th Edition, and answer viewers' questions. Webinars will be archived and posted within two weeks after each live event. Continuing education is available for each session. [Advanced Registration](#) is required.

Wednesdays from 12:00 – 1:00 pm

**Webinar: HPV Vaccination: Tools for Training Your Staff**

In this one hour webinar, participants will learn to develop staff training within their office and effectively communicate with families about the importance of the HPV vaccine using the Same Way, Same Day app. Your office staff will gain HPV vaccine knowledge for the correct way to store, handle, and administer with the right tools they need.

Thursday, June 13, 2019

3:00 - 4:00 pm ET

## WHO Afro Outbreaks & Emergencies

Week 22: May 27 – June 2, 2019

- <https://apps.who.int/iris/bitstream/handle/10665/325086/OEW22-270502062019.pdf>
- New Events
  - Cameroon – Circulating vaccine derived polio (1 Case). An environmental sample contained a confirmed circulating vaccine derived poliovirus type 2 (cVDPV2) in the Far North province, at the border of Nigeria and Chad. The strain is genetically close to the cVDPV2 strain circulating in Nigeria. There have been no associated human cases of acute flaccid paralysis.
  - **Lesotho – Anthrax** (20 cases, 0 deaths). A probable outbreak has been reported outside of the capital city. Seventy-two people in four villages were exposed to the carcass of or sick cattle. Twenty developed signs and symptoms (blisters, swollen limbs, diarrhea and abdominal pain, headache, chest pain, poor appetite).
- Ongoing Events
  - **DRC – Ebola Virus Disease** (1,994 cases, 1,339 deaths, CFR 67%). Eighty-two new confirmed cases have been reported, with an additional 62 deaths. One hundred ten health workers have been affected, with 35 deaths. Twenty-two health zones have reported at least one confirmed or probable case, and 15 have reported confirmed cases in the last 21 days. Contact tracing is ongoing in 17 health zones.
  - **Republic of Congo – Chikungunya** (7,811 cases, 0 deaths). Increasing incidence and wider geographical spread have increased the number of cases to eight health districts. Eight of 12 departments have been affected. The outbreak began in the beginning of January.
  - **Zambia – Cholera** (312 cases, 7 deaths, CFR 2.2%). Mpulungu District (on the shores of Lake Tanganyika) has seen an outbreak since early-April. Two districts have reported cases.
- Humanitarian Crisis
